## Lake Anna Tree Christmas Lighting & Celebration Dec. 2nd

The Lake Anna area will have its first large-scale holiday celebration at Lake Anna on Friday, December 2nd on the Mineral side of the Route 208 Bridge. The evening will include local vendors serving warm food and hot beverages to help curb the colder weather.

Another activity to warm the hearts of attendees will be the local church choirs and school chorus groups who will be on hand to perform holiday favorites for the crowd. Many groups from Spotsylvania, Louisa, and Orange have stepped up and volunteered to help spread the holiday spirit at the event.

The event will also benefit the local chapter of the Marine Corp’s Toys for Tots program, as unwrapped

## Tim’s River Shore Adding New Lake Anna Location

*-Staff Reports*

Popular seafood restaurant Tim’s River Shore will be making its way to Lake Anna this spring, with a target date of March 1st for the grand opening.

The combination restaurant & sports bar will be occupying the entire first floor of The Boardwalk on Lake Anna - the new commercial building on Route 522. This location, called “Tim’s at Anna” will bring a new flavor to Lake Anna cuisine. The location is sure to become a favorite for locals and visitors alike.

The restaurant will be 6400 square feet and will serve a full seafood menu that fans of Tim’s River Shore have come to expect. The restaurant will offer boat slips for patrons who arrive by water and the large deck overlooking the lake will be home to many tables for water-side dining.

The Boardwalk at Lake Anna will also be home to hotel accomodations, conference facilities, and a mini golf store, among more retail locations.

## FEMA Approves Aid for Mineral Earthquake Damage

*from Staff Reports*

On November 4, The U.S. Department of Homeland Security’s Federal Emergency Management Agency (FEMA) announced that federal disaster aid has been made available to the State of Virginia from damage resulting from the August 23rd earthquake, centered in Mineral. The assistance will be comprised of grants for temporary housing and home repairs, low-cost loans to

*The Federal Aid Program includes assistance in the forms of rental payments, grants, loans, counseling, and advisory assistance.*

cover those uninsured for earthquake damage, and other programs to help civilians and businesses to recover from the effets incurred from the largest earthquake this state has seen in a century.

The FEMA recover plan is also to include additional benefits to those who have been effected by the earthquake. There is an extended unemployment payment program for up to 26 weeks for anyone who temporarily lost their job due to the disaster and are not

## Best of Lake Anna Awards Bring Together Community, Raise Funds for Local School

*by Jennifer Armstrong*

Rain threatened the evening, but a few showers couldn’t dampen the spirits of some of Lake Anna’s brightest businesses and dignitaries from celebrating the Best of Lake Anna for a great cause.

The night began as a recognition of the winners of the Best of Lake Anna Awards - a group of nominees that were widely voted upon by the Lake Anna Community. After the devastating damage from the August 23rd earthquake, the night became a fund raiser for one of our schools that was most in need.

Upon arrival, guests could peruse the large list of silent auction items that had been donated by local businesses. Among the highlights were a 7-day Caribbean

## LETTERS *to the Editor*

*We read in your last newspaper about the possibility of Alan Jackson performing a free concert at Lake Anna? Did that happen?*

*Rose Carter, Midlothian, VA*

The free Alan Jackson concert was a prize in a contest sponsored by Eventful.com. The contest ended in mid October and Mineral did, in fact, win the competition with nearly three times as many votes as the runner-up. Much speculation has been made about when/where the concert will take place. We've heard from several sources that the likely location of the event will be Walton Park in Mineral, however, the actual concert will not likely occur until at least spring of 2012. We've contacted those in charge of the contest and will bring you up to date information as we receive it. For the most current updates, make sure to check LakeAnnaGuide.com regularly and also feel free to friend us on Facebook at facebook.com/lakeannaguide.

*Do you have a Lake Anna related question you'd like to ask? Feel free to e-mail [info@lakeannainfo.net](mailto:info@lakeannainfo.net) and we'll choose answer(s) each month to highlight.*

hotel stay donated by local realtor Libby Sandridge, a team-signed soccer ball from the DC United, \$200 in gift certificates from 84 Lumber, a 3-hour cruise on Lake Anna donated by Lake Anna Houseboats, and other gifts from generous

donors such as Chick-Fil-A, Tractor Hill Equipment, and many more. In total, more than 50 items were up for auction and each item received bids and were purchased by an attendee. Editors Awards by the Lake Anna Guide were presented to those in the community who have made strides in the last year to add something to or improve the Lake Anna landscape. The five honorees were Dickinson's Store, Keli Harold of KKH Administrative Services, Steve Benjoar of The Boardwalk at Lake Anna, Al Gajarsky of Lake Country Marine, and Jeff Snyder of J.A. Snyder Entities.

The five categories were voted upon by the public at large. The first award was to honor the most charitable organization. The award was announced by the Director of Economic Development for Louisa County, Andy Wade and presented to Mike Crist on behalf of Dominion.

The second award was presented to Jennie Lukstat of Lake Anna Island Realty for Best Customer Service. Several of Mrs. Lukstat's satisfied customers attended to show their support for the realtor.

The award for Best Promotion of Lake Anna went to Long & Foster's Dana Isaac, who is involved in several organizations around the lake and tirelessly works to promote within and around the Lake Anna area.

Business of the Year went to Food Lion, the new addition to the Lake Anna landscape this year. Many voters couldn't resist voting for the company that brought a new level of convenience to the area.

The final award of the night was presented to Jeff Heidig of the Lake Anna Winery, who was voted Business Person of the Year. Jeff is a wonderful liaison between the public and the popular Lake Anna venue and honor is well deserved.

A special community service award was presented to the Lake Anna Civic Association, in recognition for their work, which includes persistently working to protect the water quality at Lake Anna and raising funds for the amazing annual fireworks display that so many at Lake Anna enjoy each year. Newly elected president Doug Smith was on hand to accept the award for the organization.

In all, the night raised funds for local elementary school, Thomas Jefferson Elementary. The Lake Anna Guide also presented the elementary school with a brand new flagpole, something that was sorely missed from its new location.

The reaction to the evening has been overwhelmingly positive with many already alluding to next year's festivities. Nominations can be made anytime between now and next summer before releasing the next nominees. The night was a huge success thanks to the voters, nominees, and attendees.

The Partnership 2012 slate of directors includes, from left, Jeff Martin, Ben Waddy, Dr. Russell Beattie, Jill Gajarsky, Jeff Heidig, Joel Kendall, Bill Fosdick, Dick Dickens, president. Not pictured are CC. McCotter, Ron Gentry and Donna Stocking.

## Partnership addresses unauthorized email, elects board members

by Bernice Wilson-Kube  
News Editor

The Lake Anna Business Partnership met on Tuesday, Oct. 18, at The Nuclear Information Center at the North Anna Power Plant. During the meeting, partnership member Libby Sandridge, asked Dick Dickens, president, about an unauthorized email that had been transmitted to the membership by a board of directors member. According to Dickens, the email in question was sent approximately three weeks prior to the Oct. 18 meeting concerning a local group’s septic system.

Dickens responded, “All of you should have got, most of you probably did get an unauthorized email that covered several subjects. About the fourth paragraph down there was a paragraph on a treatment plant, expansion of a treatment plant as proposed by Mr. Snyder’s group.”

Dickens said the reason he had put out a clarification was that it appeared to him that the Lake Anna Partnership was against treatment plants, or against that particular project.

*“The Partnership would never come out against a well designed, hi-tech, state of the art treatment plant.  
That’s ridiculous,”  
- Dick Dickens, LABP President*

“That’s not true,” said Dickens. “The Lake Anna Partnership has no official position either way. We don’t know enough about it,” he continued.

Dickens said he would relay his strictly personal opinion based on his experience as an architectural engineer and 25 years of land development management.

“The Partnership would never come out against a well designed, hi-tech, state of the art treatment plant. That’s ridiculous,” he continued.

“As I said in this room a few months ago, a senior representative of DEQ, Department of Environmental Quality, spoke highly in favor of package treatment plants,” said Dickens.

Dickens told the group, “The fact is that every drainfield around the lake sooner or later is going to fail. Whether it is five years, or 50 years they are all going to fail and when they do that’s when it [effluent] will get to the lake. Package treatment plants are the future of rural residential development.”

Dickens said he thought the board would do more research and meet with a representative from DEQ and State Department of Health in order to be better educated.

Dickens concluded by stressing his point that the email had originated from one director and did not speak for the Partnership.

In other news, the members at large elected the 2012 board of director members. Nominees included Jeff Martin, Ben Waddy, Dr. Russell Beattie, Jill Gajarsky, Joel Kendall, Bill Fosdick, Jeff Heidig, Ron Gentry, C.C. McCotter, and Donna Stocking.

## FEMA - President Declares Disaster for Virginia

qualified for traditional state benefits.

Low interest loans are available for up to \$200,000 for primary residences that sustained losses and up to \$40,000 for personal property. Small businesses, small agricultural cooperatives and non-profit organizations who have encountered disaster-related cash flow problems are also eligible for assistance.

Those who have sustained losses can file for assistance immediately by registering online at [www.DisasterAssistance.gov](http://www.DisasterAssistance.gov) or by calling 1-800-621-FEMA (3362). The toll-free number will operate from 7 a.m. to 10 p.m. for seven days a week until further notice.

Assistance to Virginia had previously been denied, but the declaration on November 4th was a huge boost to the area.

FEMA’s mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from, and mitigate all hazards.

*Loans are available for primary residences, small businesses, non-profit organizations, and other entities that have been directly effected by the disaster.*

If you’d like to keep up with the FEMA activities online, more information is available at [fema.gov](http://fema.gov), and through the FEMA accounts on Facebook, Twitter, and YouTube. As we learn more updates about assistance, we will update online at [LakeAnnaGuide.com](http://LakeAnnaGuide.com) and in future issues of the Lake Anna Breeze.

Approximately 300 people gathered at the Louisa County Middle School, Nov.1, to hear a presentation by Dominion and the NRC as to the status of the restart of the North Anna Nuclear Power Plant.

# NRC Discusses Inspections & Assessments Following Quake

by Bernice Kube, News Editor

Several of Dominion Power’s top brass were on hand at the Louisa County Middle School Tuesday, Nov. 1, along with members of the Nuclear Regulatory Commission, NRC, to discuss its inspections of the North Anna Nuclear Power Station and its assessment of the plant’s readiness to restart following the Aug. 23 earthquake.

David Heacock, President and Chief Nuclear Officer, made the presentation to approximately 300 citizens for Dominion. Heacock reviewed the inspection process saying that more than 100,000 hours and \$21 million had been spent in inspection, testing and evaluation of the plant, which exceeded the NRC’s endorsed guidelines. According to Heacock there was no functional damage to safety systems and the units at the plant are ready for restart. Explaining the effects of the earthquake Heacock told the group, “The plant tells the story.”

Plant damage included a base pedestal in the Unit 2 turbine building, a crack in unreinforced non safety re-

lated block wall, also in the turbine building, and a surface crack in Unit 1’s interior containment wall. Heacock also stated that some dry cask storage units moved between one and four and one half inches. With no significant damage found, Heacock told the group that the plant is safe to operate and the units are ready for restart.

Members of the NRC also made a presentation on the status of NRC inspection and a review of their activities as related to the North Anna Power Station seismic event. NRC officials told the group that Dominion surpassed the NRC guidelines and that there was no safety concerns as a result of the seismic event. Eric Leeds, NRC, Director of Nuclear Reactor Regulation, said that the inspection was still in progress but that the team would not allow the plant to start until everything was deemed safe.

However, later in the question and answer session Victor McCree, NRC Administrator of the Region II Office, stated that authorization to restart the plant is expected in the next week or so.

toys will be collected upon arrival and then donated to children in our area.

Speaking of the kids, there will be several different holiday activities and stations available for kids to make souvenirs or goodies

*The festivities will include performances by local choirs, photos with Santa Claus, and end with a spectacular tree lighting.*

to help brighten their holidays. The celebration will also include vendors selling holiday-themed merchandise and locally made goods.

The evening will culminate in the lighting of a large Christmas tree near the lake’s shore that will be visible from both lanes of traffic on Route 208. The tree will remain illuminated each evening for the rest of the month of December. The tree has been generously provided by the Belmont Christmas Tree Farm.

For more information, to volunteer or help sponsor the event, please call (540) 872-0684.

## Island Mochas Brewing Funds for Local School

Coffee shop Island Mochas at the Lake Anna Island Shops complex at the 208 Bridge are calling November “T.J.E.S. Spirit Month” and during the entire month, 10% of all sales will be donated to the needs of Thomas Jefferson Elementary School. The building of TJES was badly damaged during the August earthquake and local citizens and businesses have stepped up to help bridge the gap between what is still needed and the reality of the situation the school currently faces.

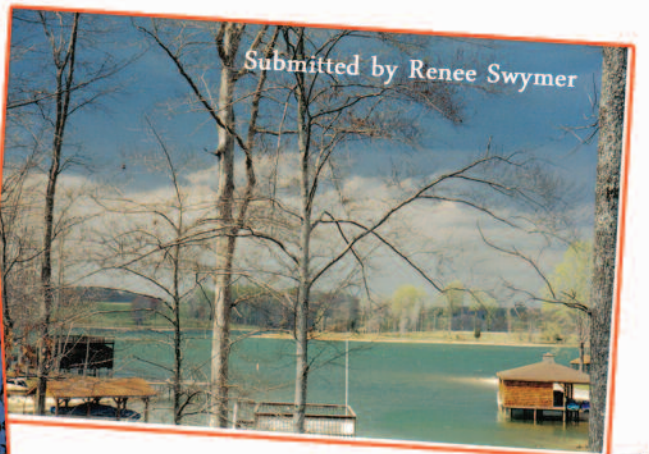

Island Mochas is open weekdays from 7:00 am to 5:00 pm and on weekends from 8:00 am to 6:00 pm. The shop offers an array of coffee and tea, along with fresh sandwiches, pastries, soups, and other delicious treats.

The Lake Anna Guide donated a flagpole to the new location of Thomas Jefferson Elementary School and it was recently installed on site by Lakehouse Building & Design (Junior Partner Matthew Phillips is shown above preparing the flag). The flag now is now proudly displayed for the children and school staff to enjoy. As Assistant Principal Dr. Heaton explained, “A school just isn’t a school without a flag!” Hopefully, the kids will see the flag as a return to normalcy in this year that has been so disrupted.

## EarthQwake Showcases Talent

by Kyle Austin, Event Organizer

A common question in the Lake Anna area lately is: "Did you feel that?" Waves of aftershocks have rocked our quiet town since the August earthquake. On October 1st 2011, if you were at Christopher Run Campground, you definitely felt it. For those that didn't attend Earth-Qwake it was a benefit wakeboarding event to help raise money for the local community and was a huge success. It was cold, cloudy and yet hundreds showed up to support the local scene. Raising \$3,321.00 for the local schools, it was a great feeling for anyone in attendance.

With the help from companies all around the United States, we made it a day to remember at Lake Anna. Stultz Clothing Company, Alliance Wake ,Virtue Wakeskates, and Hot Buttered Sunglasses were huge sponsors for the day. All three representing from Orlando, South Florida, all the way to California with Alliance Wake. Stultz Clothing came from Baltimore, Maryland to attend. Having the the support of great businesses like these prove that in a time of need, there are great ways to enlighten the spirits of people all around you.

There were many participants in the events throughout the day, starting off with the 13 and under division. The display of talent was amazing, especially with 12 year-old Daniel Harrison throwing down an amazing run with a huge tantrum to seal his victory over the division. His older brother Gordon was also a competitor in the event. Riding in the outlaw division and being the youngest in the class didn't faze Harrison at all. Gordon showed he has the skills to bring home many more top ranking positions in future events. His picture is featured above on the first place podium along with Kyle Barmoy taking second and Max Carr finishing up in third. The levels of wakeskating at this event were so great, we hosted a beginner and advanced class. The sport of wakeskating is growing so fast, having more than one division is rare. Now we have top riders such

as Matt Hayden and Forrest Stern who are doing tricks that are new to the lake. Both Matt and Forrest made it to the podium at Earth-Qwake and presented a great showing for the crowd.

When the judges were compiling their score sheets to determine the winners, there was one more rider to take off the dock. This was no ordinary rider. He was the 2011 Liquid Force Bro-Stock winner Adam Fields. Fields attended the event as a professional rider to demo for the crowd, and what an amazing job he did. He crushed the wake with an astounding bag of tricks and skills. Adam also signed the newest magazine issue from Alliance Wake which featured him and his victory at Bro-Stock for all the fans in attendance.

The event was a success, thanks to all of the people and businesses that supported it. Christopher Run was a huge part of this, letting us use their property as a venue and also doubling all of the money raised from parking to go to the cause. Lake Anna Winery made a huge donation as well and fueled the 2011 Supra 21v for the competition riders. A recent group Called Wake Savers was the heart and soul of the idea behind Earth-Qwake. They are a group of local wakeboarders that came together to help rebuild the community that has been brought down by the recent natural disasters. As well as the above mentioned sponsors, like: Liquid Metal Tattoo, Lake Is Great, Island Mochas, Bakwuds Skateboards, Ski Center, Kyle Barmoy's Wakeboard School and Tiki Bobs Cantina. Having the community pull together for an event like this shows that we will prevail over these damaged days and that we can rebuild our community one step at a time.

On a personal note, the day was special for this writer. Hosting the contest with friends, competing, as well as a well planned engagement proposal, following my announcement about the event. It was exhilarating to hear her say "yes" at such an amazing event.

## Benefit Gives Back

by Hope Smith

It was a crisp, early fall day at Christopher Run Campground. You could even say it was unusually chilly for the first day of October. But the lower temperatures didn't stop the scads of locals, out of towners, and water sport professionals from coming together for a common cause – the "Earth-Qwake" benefit bash. This benefit was brought to life by a newly-established foundation called Wake Savers, headed by local do-gooder and water sports aficionado, Kyle Austin. The purpose of the benefit was to host a contest and professional demonstrations by wake boarding, surfing, and skating gurus, raising money for the local folks affected by the 5.8 magnitude earthquake of August 23rd, which was centered in Mineral.

In addition to water sports, vendors pulled together to help raise money for this worthy cause. There were vendors that donated raffle prizes, gave a portion of their sales proceeds, or simply volunteered their time. The generous group of vendors and volunteers included alliancewake.com, Lake Is Great, Liquid Metal Tattoo, Stultz Clothing, Island Mochas, Backwuds Skateboards, Red Bull, and Supra Boats.

The riders, both amateur and professional, braved the chill in the air to "shred" for the day. Riders included Matt Hayden, Kyle Austin, Kyle Barmoy, Zach Tarleton, Tyler Talbert, John Ketchum, and Steve Britts, just to name a few.

Some finished their set only to have their lips turn blue from the chill, searching for dry, warm clothes.

On behalf of our tight-knit community, I would be remiss if I didn't thank the good people at Christopher Run Campground for allowing a beautiful venue in which to raise funds. They generously donated the \$10 entry fee to the campground to the Earth-qwake. It wasn't just a day for doing a great thing for our community – there were introductions to new friends, reunions with old ones, and the general camaraderie of the community.

The benefits for our community continue today. You may ask yourself, "Why benefits? Didn't insurance cover damages from the earthquake?" Unfortunately, the answer is "no". Unless the affected party obtained an "earthquake rider" with their insurance, the damages are not covered. It's an unfortunate reality, that some homeowners found their homes condemned. Their safe haven, a place where so many memories dwelled, was declared uninhabitable. As well, schools, such as Louisa County High School and Thomas Jefferson Elementary School, were damaged beyond habitation. As of October 14th, there have been 41 aftershocks, compounding the damage already done. The efforts by Austin and those like him are making a huge difference in the repairing of our area.

## Fishing at Lake Anna

Some of Lake Anna's most skilled guides have prepared fishing reports to help you on your next fishing trip. Our website also publishes these reports monthly and archives them as the year goes on. LakeAnnaGuide.com also provides up-to-the-minute fishing weather conditions.

**Lake Anna Striper Guide 540-967-3313**

Jim Hemby, <http://www.jimhemby.com>

STRIPERS: The lake is in great shape this year, filled with plenty of fresh water holding plenty of oxygen and the temperatures ranging from upper 50s up-lake to mid 60s down-lake. Stripers will be feeding throughout the lake, but the three most productive areas will be down-lake at the third dike, even though the plant is not running, mid-lake from Sturgeon up to Stubbs and Holliday Mill, then all the way up either arm of the lake. In the current, it is hard to beat the Pencil Popper worked on the surface. When the fish sound, convert to swim baits and spoons to catch the Stripers. There are nice schools working the mouths of Sturgeon, Boggs, and around the power plant. Mid-lake fish are turning on strong with the gulls exposing the numerous schools of Stripers. When approaching gulls working fish, cut your big motor off at least 100 yards before getting to the area of the gulls and use your trolling motor to take you into the area. Not only does your big motor spook fish and make them sound, but you most likely will encounter fish well before you reach the area of the birds. Also remember to be courteous to other anglers and not encroach on them while they are working the schools. The stripers are schooled well around the splits chasing bait to the surface in low light conditions and schooling deeper in the 20 to 30 foot flats during the day. Run live bait on down lines or jig spoons and flukes at the depth you see the arches on your depth finder to catch these stripers. The pattern that produces the best this month for the larger stripers is running Big Gizzard Shad behind planner boards in the upper water column over water depths ranging from 25 feet right up to the bank. The fish want to fatten up and will attack the larger baits driving the shad up to the surface with explosive strikes. Chris Craft, [www.ccbassnlakeanna.blogspot.com](http://www.ccbassnlakeanna.blogspot.com)

BASS- You can find fish all over the lake at this time willing to take a variety of baits. Look for them to be shallow for most of the month, as long as Old Man Winter doesn't show up early! Search baits will be a great starting point for you as the fish are feeding up for the winter months that will be upon us shortly. Rat L Traps, Tigershad Spinnerbaits, shallow crankbaits will be good choices to start with. I will be using a Burton Minnow on a Scrounger Head alot this fall and winter. Top water is not out of the question either, I have caught several 5lb plus fish with the water in the low 50s on walk the dog style baits. My favorite is the Paycheck Baits Repo Man & Repo Man Late Payment! You just have to slow them down and not be so aggressive.

Repo Man Late Payment

For those days when the fish are not as aggressive, shaky head rigged plastics and wacky rigged plastics will work well. Boat docks will hold fish on very bright and sunny days, you must be able to skip the bait as far under the dock as possible. Don't get in a big

hurry with the bait. Patience is the key!

## Holiday Classic "It's a Wonderful Life" on stage in Barboursville

The Four County Players in Barboursville will be presenting their version of the Christmas favorite, "It's a Wonderful Life". Four County Players is Central Virginia's longest continuously-operating community theater. A non-profit organization, Four County relies on volunteers for most of its operations.

The saga of George Bailey, the Everyman from the small town of Bedford Falls, whose dreams of escape and adventure have been quashed by family obligation and civic duty, whose guardian angel has to descend on Christmas Eve to save him from despair and to remind him by showing him what the world would have been like had he never been born that his has been, after all, a wonderful life. This faithful adaptation has all your favorite characters: George and Mary Hatch, Clarence, Uncle Billy, Violet, and, of course, the Scrooge-like villain, Mr. Potter. This fine dramatization not only celebrates the faith of the season, it also celebrates the American philosophy of life: hard work, fair play and the love and support of one's family and community will be rewarded.

December 2, 3, 9, 10, 16, 17 at 8:00pm • December 4, 11, 18 at 2:30pm. Tickets: \$16/adults; \$14/seniors & students; \$12/children 12 and under. All Fridays Half Price

Lake Anna Horoscopes

ARIES (March 21 - April 20)
You're always the enthusiastic one, but this month a dispute between someone close could threaten your positive energy. The matter will entail something with finance or property and could cause stress. It's best to listen to ideas from your co-workers, as they may be able to come up with the perfect solution.

TAURUS (April 21 - May 20)
Routine responsibility is great - but after last month, you may need to let loose a bit this month. Make sure you don't use all your energy in one aspect of your life and you'll find that your closest relationships will be particularly great throughout November.

GEMINI (May 21 - June 20)
You might find yourself in serious mode this month with all of the responsibilities you have swirling around, but you'll experience good karma for being rewarded for a good deed. November is a great month for both work and personal matters.

CANCER (June 21 - July 21)
You will receive high praise from a boss or colleague this month and they will unexpectedly show their appreciation. Your family is in harmony this month, which gives you a newfound confidence about your upcoming holiday plans. Don't get caught in all the details - you'll know the time to take a little break and this month, that is a necessity.

LEO (July 22 - August 22)
If you have the chance to take work or a task home this month, do it. You'll be able to concentrate better there. You'll also find that you want to stay home more now than usual. This will give you more energy and willpower and you'll be able to handle the issues that arise toward the end of the month.

VIRGO (August 23 - September 22)
A pressing matter will become water under the bridge this month, which will give you relief. If you're feeling lethargic, ask friends or your doctor about vitamins or other ideas that might help you feel more energetic. One thing that always perks you up - break from the routine and look for challenge...you need that to stay focused.

LIBRA (September 23 - October 22)
You're looking for ways to bring in more spending money before the impending holiday season - don't be so quick to move on from a project or situation that looks like it's going nowhere. Your imagination will inspire everyone else throughout the month.

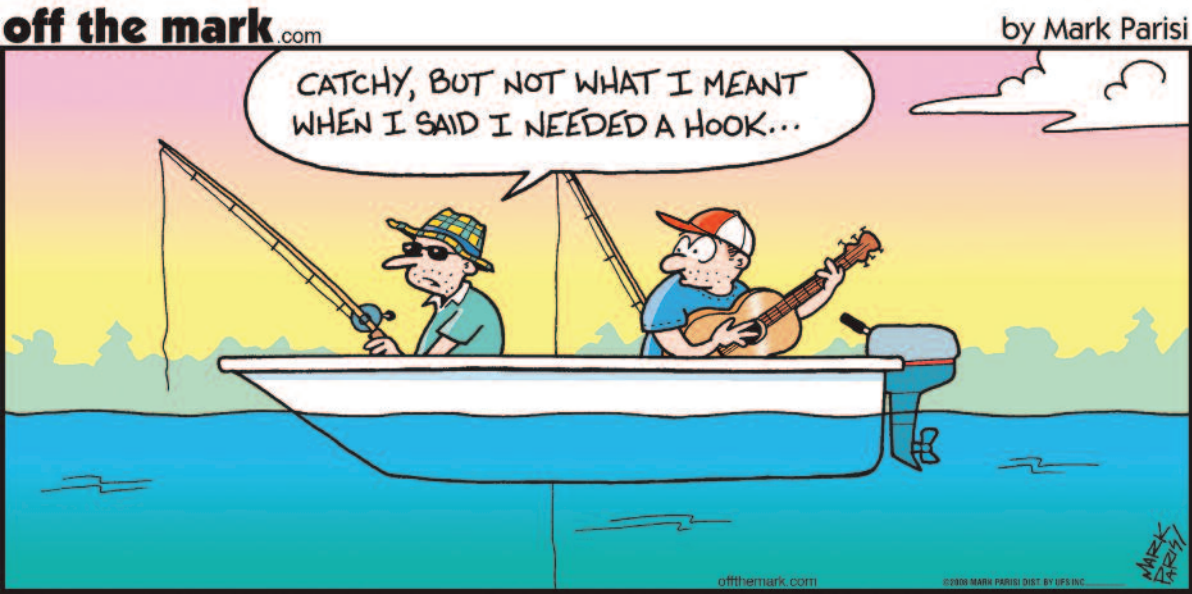

SCORPIO (October 23 - November 21)
Why wait for New Year's to start resolutions? You're looking for change now and this month is as good as any to make new starts in your life. Is there a change in career that you've always wanted to make but never had the chance? This time around your birthday is ideal. It always gives you a determination that's stronger than any other time of year.

SAGITTARIUS (November 22 - December 21)
You're full of energy this month and if you don't harness it, you'll be all over the place. You will have some private matters that you must discuss with your closest friends and family and if there's something that's leaving you dissatisfied, it's time to address it and change it.

CAPRICORN (December 22 - January 20)
Don't try to fly solo this month - being a part of a team will be a much better idea right now. You're going to feel up and down throughout the month, but you will enjoy that the people in your life are being more open and honest with you than they have been in the past.

AQUARIUS (January 21 - February 19)
The weather is getting colder, but don't let that keep you indoors all the time. You need fresh air and exercise more than ever this month. You also need to work on your organization - it will help you accomplish many goals and handle all of your responsibilities. Your free time is limited, so make the most of it this month and be more sociable than you've been lately.

PISCES (February 20 - March 20)
You're prone to confrontations this month, but it's in your best interest to take them in stride, as it could upset your health if you don't. Someone close to you seems a bit moody and the best answer is to allow a bit more independence. The idea of a vacation or short trip sounds particularly amazing this month and a far-away place may be just what you need.

Lake is great.

## Your guide to dining and cooking at Lake Anna.

## Thanksgiving in the 21st Century

The days of passing down recipe cards from generation to generation may be a thing of the past. With more of our lives becoming digital, we will now be able to pass information easily and maintain family secret recipes perfectly in tact.

Renee Ferguson, the cookbook author that Bobby Flay deemed “the queen of all things Thanksgiving” is now offering her critically acclaimed holiday cookbook “Talk Turkey to Me as an eBook in formats available for digital platforms, including the iPad, Nook, Kindle, PC, Mac and most eBook readers. The new e-cookbook is available for \$9.99.

“Since I published the paper-based first edition of my book in 2006, smart phones, dig-

ital readers and the iPad have revolutionized how cooks shop for their ingredients, search for and follow their recipes. My new digital eBook is designed to meet them where they live and cook,” explained Ferguson.

A former Butterball turkey hotline operator, Ferguson prevented culinary catastrophes during the holidays for 17 years. She put it all down on paper and the end result was *Talk Turkey to Me*, a cookbook that thrust her into the limelight as America’s favorite turkey expert. The book displays cooking time guides and more than 80 delicious side dish recipes, from appetizers to desserts, relevant year ‘round.

For a link to purchase the event, please visit [LakeAnnaGuide.com](http://LakeAnnaGuide.com)

### Lemon-Oregano Grilled Turkey

#### Ingredients:

1/3 cup olive oil  
4 medium lemons  
1 tablespoon chopped red onion  
1 bunch fresh oregano leaves  
8 cloves garlic, divided  
1/2 teaspoon coarsely ground black pepper  
no-stick cooking spray  
1 (12-14lbs) Butterball® Fresh or Frozen Whole Turkey

#### Directions:

1. Combine oil, the juice of 2 of the lemons, onions, 1 tablespoon chopped oregano, 2 cloves of the garlic and pepper in blender or food processor container; cover. Blend until smooth. Pour into small bowl; set aside.

2. Spray cold grate of outdoor grill with cooking spray. Prepare grill for medium indirect heat.

3. Remove neck and giblets from body and neck cavities of turkey; discard or refrigerate for another use. Drain juices from turkey; pat turkey dry with paper towels. Turn wings back to hold neck skin against back of turkey. Untuck legs. Loosen skin over breast and legs of turkey by gently sliding 1 hand under skin. Cut 1 of the remaining lemons and 2 garlic cloves into thin slices. Arrange under turkey skin with half of the oregano bunch. Return legs to tucked position.

4. Cut the remaining lemon into quarters; place in body cavity of turkey. Add remaining 4 cloves of garlic and the remaining half of the oregano bunch. Spoon or brush some of the lemon juice mixture evenly over turkey.

5. Place turkey, breast up, on grill grate over drip pan. Cover grill with lid. Grill 2-1/4 to 2-3/4 hours, or until meat thermometer inserted deep in thigh reaches 180°F, basting with more lemon juice mixture after each hour. Let turkey stand 15 minutes before carving.

## Fireplace Boxes Create Traditional Feel With Ease

Some Lake Anna residents are getting an early Christmas present so they can enjoy the holidays with the warmth of a fireplace. Premade fireplace boxes are more and more common place and can save a lot of time with installation.

Once building permits have been secured, it only takes a few days for the rough-in part of the fireplace and depending on the finish, the entire project could take a week or two. If finishing the project with simply a drywall and trim finish, the project could be completed easily within a week. If you would prefer a complete stone or brick façade, the installation could stretch into two weeks.

These boxes can hold gas logs or real wood burning and venting and insulated pipe has made it convenient in that one doesn't have to have a masonry chimney. These fireplaces look just like old fashioned ones, but are much easier to install and can be customized to fit your home, your current decor, and other items that you'd like to highlight. This easily makes the fireplace a viable option for any style of home.

Once you decide your available budget, desired style, permits that are necessary, and a plan to go by, your home can be improved with another source of heat, a source of style, and a design element that complements your home. There's no reason to live without a fireplace, simply because your existing home doesn't have one.

*For more tips and home design articles, please visit [LakeAnnaGuide.com](http://LakeAnnaGuide.com) for additional resources, photos, and videos for design idease and other helpful hints.*

## Mill Run: Not a Run of the Mill Experience

If you've ever dreamed of having a lake house with a breathtaking scenic view, then Mill Run is the place for you. Life on Lake Anna is a special experience and Mill Run can enhance that for you and your family. A short ride through gentle, winding roads leads you to Mill Run - made of 39 waterfront lots and 68 water access lots. Each access lot will have access to a covered or open boat slip. With protective restrictions, underground utilities, and a proposed upscale common area, Mill Run offers the ultimate in waterfront living.

*Mill Run consists of 39 waterfront lots and 68 water access lots and each access lot will include a boat slip.*

The common area will offer a pavilion with fireplace, restrooms, swim area, boardwalk and boat ramp.

Recently completed paved roads will be state maintained for convenience. The site offers rolling hills, gentle, winding roads and an enticing entrance that adds to the feel of one of the premiere subdivisions at Lake Anna.

Phase 1 of the common area is now complete and includes a 14' wide concrete boat ramp with launching pier, more than 300 feet of boardwalk, and a large deck area over the water. Property owners were able to enjoy these amenities during the summer season this year.

Phase 2 has recently commenced, with the site graded and ready for construction of the pavilion with restrooms. The driveway is in place and the construction on the 32 covered boat slips that will include power is now underway.

With more improvements on the immediate horizon, Mill Run is a wonderful choice for basing your Lake Anna home. For more information, please feel free to call developer JC Bane, who welcomes calls at either his toll-free number at 800-515-9923 or directly on his cell at 804-337-2212.
